>> Axi® Stop Valve

This valve turns any shower into a water saver. Flow of water is reduced to 9.5 liters/minute (2.5 GPM). The one-touch ON/OFF button lets you shut the water on or off with push button ease. Most effective and quickest way to save water and energy. Easy installation without any tools, fits all standard 1/2" shower heads or hand held showers.

Use it with any hand held shower to get extra water savings out any shower fixture. Partial push of the button enables lower water consumption so it acts as a volume control valve as well.

Conforms to ANSI A112-18-1M 2.5 GPM; DIN EN ISO 3822-1 and DIN EN ISO 3822-4. Certified California Energy Commission and LGA Institre Germany.

>> Shower holder

Conical shower holder attaches to the wall via double-sided adhesive tap and/or screws.

>> Colors:

- White
- Chrome

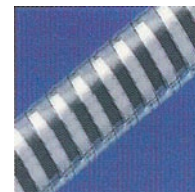

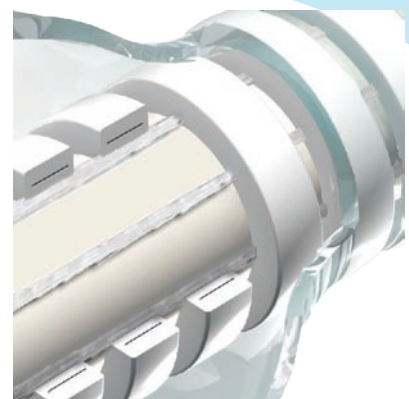

>> Better by Design:

Light and flexible shower hose. Easy to clean. Will not scratch the bathtub. Corrugated shower hose with PVC inner tube, 8 longitudinal yarns for pull strength and a clear PVC outer cover.

In between the layers a metal strip is wound, which reinforces the hose radially, giving pressure and bending resistance.

Another example of how far we go to satisfy your needs in designing our products.
