

## >> great pulsating shower regardless of water pressure

Monsoon® is quite simply, an outrageously attractive and extraordinarily powerful shower. This patent-pending shower simulates luxurious fine mist of tropical monsoon. Unique engineering allows incredible pulsating shower regardless of water pressure.

Monsoon® shower allows a person to take a luxurious shower while using less water than would be consumed by a single camp-style shower. In fact, Monsoon® uses as little as 0.7 gallons per minute\*.

**The best part is that you will never know you are saving precious water, and your money - and all you get is very best, pleasant, and refreshing shower.**

Space-age thermoplastic material is virtually unbreakable. Absolutely maintenance-free design is impervious to corrosion, lime and scale buildup. We are so sure that Monsoon® will never get clogged we offer you a Lifetime Non-Clogging Warranty.

Easy to install by hand without tools. Simple to use - no dials or buttons to fumble with - just powerful refreshing effervescent shower. Terrific pulsating shower with excellent rinsing ability.

Also available with integrated push-button shut off valve for even greater water savings.

#### Better by Design:

Specially engineered patent-pending **Hydrodynamic Vacuum Chamber™** accelerates passage of water and literally explodes the droplets of water through the opening.

The exiting velocity of the spray of water is far greater than that of conventional showerheads. These accelerated droplets of water give feeling of a more voluminous pulsating shower, while conserving water.

Perfect for use in residential, commercial, and institutional showers where water conservation and rich shower are demanded. Advanced engineering has only one spray orifice which can never be clogged. Entire unit has only five parts for unprecedented reliability. Fits all standard 1/2" shower arms.

Meets and exceeds all applicable federal, state and local plumbing standards.

**ANSI A112-18-1M 2.5 GPM.**

Certified - California Energy Commission.

**LGA - DIN EN ISO 3822-1, 3822-4**

Limited One Year Manufacturer's Warranty.

All specifications are subject to change without notice. Actual items may vary from pictures shown.

\* Actual water usage may vary due to a differences in water pressure. Not to be used as a guarantee of performance, but an illustration.
